

ENDLESS STORIES

A collection of Sunbrella® ReCycled fabrics

ENDLESS STORIES

Woven with recycled content, designed to last

The first chapter of this story was written in 2013 with the Heritage range, which was already being produced from work-in-progress waste.

Today, with Endless Stories, we've added a new dimension to our commitment to sustainable production.

Endless Stories is our first collection of upholstery fabrics made from recycled fibres, designed and produced in France.

UV/FADE
RESISTANT

Recycled Sunbrella® Acrylic

Made with leftover Sunbrella material captured in the manufacturing process, our recycled acrylic yarn displays slight variations and colour flecks throughout, adding to the unique character of the product.

	STANDARDS	HARVEST	HERITAGE	SLOW	SOURCE
COMPOSITION		All these fabrics meet the requirements of the Sunbrella ReCycled offer by containing at least 20% recycled materials:			
Recycled Sunbrella Acrylic		28%	50%	33%	50%
Sunbrella Acrylic		70%	47%	65%	47%
Sunbrella Polyester		2%	3%	2%	3%
FINISH		Non PFAS, Water-Repellent & Stain-Proof			
MINIMUM USEFUL WIDTH	EN 1773	140			
WEIGHT	ISO 3801 g/sqm	590	335	470	365
ROLL LENGTH	LM	25	50	35	40
SPRAY TEST	ISO 4920 Class/5	4	5	5	5
COLOUR FASTNESS UV INDOOR	ISO 105 B02 Class/8	8			
COLOUR FASTNESS TO WEATHER OUTDOOR	ISO 105 B04 1000 h Class/5	4.5			
FLAME RETARDANCY		All these fabrics pass the following certifications: BS 5852-1 source 0, Cal 117, NFPA 260, EN 1021-1 (cigarette test)			
CARE INSTRUCTIONS					
		Ironing reinforces the treatment			

All the values have a +/-5% tolerance

Also available on special order with a flame-retardant backing that passes the following certifications: BS 5852-1 source 1, EN 1021-2 (match test), IMO FTP code part 8. Special order of 200 lm minimum per construction (with a possibility of mixing up to 4 colours). Increases fabric weight by 175 g/m².

Also available on special order with a waterproof backing that brings a waterproofness >1500 mm according to the schmerber test. Special order of 200 lm minimum per construction (with a possibility of mixing up to 4 colours). Increases fabric weight by 100 g/m².

SUNBRELLA®

A BRAND THAT CARES
ABOUT THE ENVIRONMENT

From production to use, Sunbrella® fabrics combine quality with durability to reduce their impact on the environment.

PRODUCT LIFECYCLE MANAGEMENT

Our recycled fibres are sourced directly from production plants where waste is divided into colour groups and turned back into fibres. These fibres are then blended with the "virgin" Sunbrella fibres.

LESS WASTE

Our quality Sunbrella fabrics do not rot or fade and are highly resistant over time. As our fabrics do not need to be replaced as often as traditional fabrics, they generate less waste.

LOW WATER CONSUMPTION

In the solution-dyeing process, colour pigments are added to the yarn as it is spun, to guarantee colourfastness and save water. The small amount of water used in our weaving process is fully recycled in-house.

ZERO LANDFILL

For over 30 years, Sunbrella has recycled its industrial waste such as yarn and packaging. Today, every Sunbrella manufacturing facility around the globe sends absolutely no waste to the landfill.

5 YEAR WARRANTY

Sunbrella ReCycled fabrics that include acrylic carry a 5-year limited warranty for indoor and outdoor applications against abrasion, pilling, loss of colour and strength in normal usage and exposure conditions. See general warranty conditions at: dckc.fr/warranty

PFAS FREE

Our company has invested significant resources to find alternatives to PFAS (perfluoroalkylate) chemicals and has developed an optimal non-PFAS finish for all Sunbrella upholstery fabrics. Our fabrics will retain their water repellency, durability, bright colours, appearance, softness, texture, ease of cleaning and strength.

REACH REGULATION

Sunbrella has developed treatments designed and applied in strict compliance with European REACH regulations.

REACH is a European regulation designed to improve the protection of human health and the environment from the risks posed by chemicals, while enhancing the competitiveness of the EU chemicals industry.

GREENGUARD CERTIFIED

Sunbrella upholstery fabric has achieved GREENGUARD GOLD Certification. Sunbrella upholstery fabrics are certified by GREENGUARD as contributing to healthy indoor air by being a very low emitting interior product.

OEKO-TEX LABEL

A quality that meets human-ecological requirements. Awarded with the OEKO-TEX label (class II - products with direct contact to the skin), Sunbrella fabrics are produced without hazardous substances and do not pose a threat to health, the skin or the environment.
